Education

Master in Protected area, natural resources and Biodiversity

Advanced training in ecology, conservation biology, natural resource management, ecological restoration, and environmental sustainability, with a focus on Mediterranean ecosystems.

Developed skills in applied research, biodiversity conservation, and land-use management.

2021 - 2022

University of Murcia,
Spain

BSc in Biology

Comprehensive training in biological sciences, with emphasis on ecology, biodiversity, genetics, and environmental sciences. Acquired expertise in scientific research, ecological assessment, conservation biology, and the analysis of terrestrial and marine ecosystems.

2015-2021

University of Murcia,
Spain

Course in Biodiversity and Sustainable Agriculture

Intensive course focused on the relationships between biodiversity and agriculture, including agroecological transition, ecosystem services, regenerative farming, biological pest control, and sustainable agricultural practices in Mediterranean and semi-arid environments.

19-22 July 2022

University of Murcia,
Spain

Work Experience

PhD Student

PhD researcher in plant ecology and ecophysiology, studying desiccation tolerance, seed functional traits, and regeneration processes in Mediterranean oak species through experimental, field, and quantitative approaches.

2024 - today

University of Alcalá,
Madrid

Technical Assistant

Soil and Water Conservation Group. Experience in leaf morphometric analysis across climatic gradients, climate change impacts on plant species, data management and statistical analysis in R, field and laboratory work, isotopic analysis using a vacuum cryogenic extraction line, and research on hydration relationships in mycorrhizal symbioses.

2023 - 2023

CEBAS-CSIC, Murcia,
Spain

Skills

Languages

Spanish (Native), English (Fluent)

Programming Languages

R

Markup Languages

Quarto, LaTeX
